Vission

To convert unemployed rural folks into Intrapreneurs (VLE) through use of ICT

Mission

To establish a social enterprise platform with potential of creating One Million Jobs/ self-employment opportunities at Grassroot level by capacity building and setting up of Wi-Fi hotspots.

Focus Area

- **Access to Technology** : Promoting digital literacy, providing access to technology and internet connectivity, supporting technology-driven educational initiatives and bridging the digital divide. E.g Smart Villages, Smart Classes in Schools.
- **Skill Development and Employment:** Promoting skill development programs, vocational skill training centers, entrepreneurship development, and job creation initiatives to enhance employability and income generation for marginalized youth
- **Women Empowerment and Gender Equality:** Promoting initiatives that focus on empowering women, gender equality, promoting women's health and well-being, and supporting women-led enterprises. E.g Vocational Training Center for Women.

AWARNESS OF EDUCATION AND DISTRIBUTION OF REFRESHMENT AMONG UNDERPRIVILEGED CHILDREN:

We organized a camp to spread awareness about the importance of education among underprivileged children. Education not only helps them shape their futures but also provides a better future for their families. Additionally, we distributed refreshments to the children

DIGITAL LITERACY

We conducted a seminar on digital literacy in a village, specifically targeting girl students. The seminar focused on empowering them with skills necessary to navigate and thrive in a society increasingly reliant on digital technologies such as internet platforms, social media, and mobile devices. We emphasized the importance of developing critical thinking skills to effectively utilize these resources for learning, communication, and work.

AWARENESS ABOUT ENTREPRENEURSHIP

Conducted a seminar on the concept of entrepreneurship and its role in fostering self-reliance, particularly focusing on village-level entrepreneurs and their potential to contribute to India's development
